## **What is the Training and Readiness Manual?**

Put quite simply, the Training and Readiness Manual is a logical and progressive career-training plan. In this instance the T&R Manual is applicable only during Marine Corps assignments. Drawing from the years of experience provided by Subject Matter Experts, the guidance of senior occupational field leadership, and the field data provided by the Front End Analysis (FEA), the Training and Readiness Manual provides one stop shopping for both individual and section training standards. Our attempt here is to reduce, to the point of possible elimination, the unknown expectations is billet assignments. Using the T&R Manual, the individual can identify the requirements of the billet they are currently filling as well as those of future assignments. The same holds true for the section tasks listed. Now it is possible to determine, at a minimum, the requirements of each section.

Building on the Front End Analysis (FEA) conducted earlier this year a Subject Matter Expert (SME) conference was held at MCB Quantico, VA. During this T&R Development week two chapters were created to cover the RMT. The Chaplain (1) and RP (2) chapters.

In order to rapidly traverse the gap between draft and signed copy, fleet input is required. In an effort to facilitate this process, we have outlined essential concepts to keep in mind as each Marine reviews the manuals. Any questions, which are not answered by this letter, should be directed to Gunnery Sergeant Chris Mann at Standards Branch, Training and Education Division, Marine Corps Combat Development Command (DSN 278-3745 or COMM 703-784-3745).

### **\*\*\*\*\*NOTE\*\*\*\*\***

These editing instructions are generic for all T&R Manual development. Please do not be concerned with the continued reference to "Marine". Your manual will have the appropriate verbiage substituted.

## **Core Capabilities**

Cores Capabilities are those "umbrella" descriptions of what the Marines within the MOS are capable of doing. These capabilities are unique to the MOS and may show interaction between other MOS's (such as between 0241 and 0261). Capabilities are not rank specific. For example, a core capability of the 0231 is to conduct intelligence analysis. This is done by PFCs as well as MSgts. The capability remains the same, although the performance level is obviously quite different.

## **Career Progression Philosophy**

This paragraph describes the career path for the subject Marine. It is provided to aid in MOS description and textually represents the logical progression in training. The paragraph describes each level of training and the progression to the next. A milestone is identified to separate the 200 and 300 levels of training. Most often, this milestone is a mid-level formal course of instruction for the Marine.

## Special Designation

This list identifies any courses, which provide a certification, or designation to the attending Marine which are not readily apparent. For example, the Entry Level Counterintelligence Course certifies the graduate as an 0211 or 0212. However course attendance qualifies the Marine as a level I Anti-Terrorism / Force Protection Instructor. This certification does not appear on the completion certificate and might go unnoticed if not captured in this appendix.

## Reference List

This list is an inclusive list of those references used in the tasks. Each reference must have a complete short and long title, separated by a comma.

## Academic Training

This appendix lists schools, correspondence courses, and distance learning courses. Although not mandatory, the course list is provided to aid the trainer in the creation of the training plan and to inform the Marine on the availability of additional training opportunities. The list must contain a complete course name and location in parenthesis.

## Career Professional Reading

This appendix complements the academic training list. Although not required reading, this list aids in the MOS development of the Marine. Entries must be by short and long title when listing DoD publications. Title and ISBN number, in parenthesis, must be listed for civilian publications.

## Billet Applicability

This chart ties individual tasks to the appropriate billets. Most of the information in this chart is drawn from elsewhere in the manual. However, this is the place to edit the list of billets listed on the last page and assign tasks to them. Billets must be Headquarters Marine Corps approved billets and not locally created ones.

## Section Applicability

This chart ties tasks to the appropriate section. Again, this is the appendix to edit the section list contained on the last page and assign tasks to them.

Each level of training is made up of the same elements. Listed below is an explanation of each.

**Event Code** – Each level of training is identified by the beginning number of the event code. In the event, over 99 tasks are listed, the numbers may repeat with the letters changing.

**Task** - The task must contain one verb that is demonstrable and evaluable and must have one subject.

**Condition** - What does the Marine need to be provided in order to accomplish the task? The default “Provided with the necessary references, materials, and equipment” will often suffice

**Standard** - One order, manual, or publication which both the trainer and trainee may

reference to explain the task. It is sometimes necessary to insert “Per the appropriate references”. This is done for those tasks that are large in scope, often supervisory in nature. The use of “Per the appropriate references” must be highly limited. By pointing the Marine to more than one location for a standard, the strength of the standardized process is diminished.

**Concept of Task** – When the author of the task feels that the task may be interpreted in other than the intended way the concept of task is used. This area provides a 2 – 3 sentence paragraph to better explain the task. If the author of the task feels the necessity to use this area, the task should be reviewed as to its wording.

**Prerequisites** - If other tasks which must be performed or schools attended before the Marine attempts this particular task then this area provided for that requirement.

**CRP** - The Combat Readiness Percentage identifies the importance of the task. The more important the task the greater the CRP. The 100 level of training totals 60 percent. The 200 and 300 levels of training combined total 40 percent. The combined totals for the individual tasks assigned to the 100-300 levels is 100 percent. The 400 level section tasks are considered separately. The 400 level of training contains those tasks designed for the section, requiring two or more Marines to accomplish and totals 100 percent by its self.

**Sustainment Interval** - (listed in months) This tells the Marine how often each task must be redemonstrated. Tasks listed in the 100 level have a sustainment interval of 0.

**External Support Required** – This area lists any equipment, material or personnel support not organic to the unit but required to accomplish the task.

**Events Updated** - This area is later referred to as chaining. The accomplishment of some tasks should allow the Marine to receive credit for the tasks that are included. “Produce an intelligence estimate” for example, should chain to a previous task of “Produce an intelligence product utilizing a current word processing software”. In the events updated section of the task, “Produce an intelligence estimate”, you would list the event code for “Produce an intelligence product utilizing current word processing software.” Care must be given not to over chain.

**References** - The author may list up to ten references which would aid the Marine in the accomplishment of the task. If the standard contains “Per the appropriate references”, this area must contain at least two references. References are listed with both long and short title, separated by a comma.

## **100 Level of Training**

Formal schools provide this level of training. These tasks outline the core skills necessary to function as an entry level trained Marine.

## **200/300 Levels of Training**

Each of these levels outline the progressive training given to the individual Marine

## **400 Level of Training**

This level is designed to capture those skills required to be accomplished by the section (RMT). If it requires or should require 2 or more Marines to accomplish the task, it is a section task.

## **Chaining**

This appendix summarizes the chaining for all tasks. Any editing in the individual levels of training is reflected in this appendix.

## **Ammunition Requirements**

This appendix lists any ammunition requirements for the levels of training.

## **Billet Required Formal Schools**

This appendix contains any billets requiring prior formal school attendance to fill. Although the attendance of the formal school is listed here as a requirement, the needs of the Marine Corps may require a Marine to fill a billet without the listed formal school.

**Specific areas to review by chapter**

**Please insure all references are accurate and that each task has at least one.**

CHAPTER 2

Religious Program Specialist

**1001. INTRODUCTION.** The Training and Readiness (T&R) Manual is a comprehensive training document designed to identify training requirements and support resources for this Military Occupational Specialty (MOS). It replaces the Maintenance Training Management and Evaluation Program (MATMEP) and the Individual Training Standards (ITS) order as a training guide and provides trainers an immediate assessment of both individual and section combat readiness by assigning a Combat Readiness Percentage (CRP) to each training task. The T&R Manual also identifies tasks by billet applicability, enabling trainers to focus training in the appropriate areas.

**1002. UNIT TRAINING**

1. The heart of the T&R program lies in training Marines to perform as an integral unit in combat. Because unit readiness and individual readiness are directly related, the T&R manual contains both individual training tasks and section training tasks. Individual training and the mastery of individual skills serve as the building blocks for unit combat readiness.

2. Guidance concerning unit training management and the process for establishing effective unit training management programs are contained in MCRP 3-0A, Unit Training Management Guide (UTM).

**1003. THE HOLISTIC APPROACH TO TRAINING.** The T&R Manual combines traditional training such as military formal schools, Marine Corps Institute correspondence courses and On-the-Job Training (OJT), with nontraditional sources such as civilian college courses, other service correspondence courses, career professional reading, distance learning, and base training programs. This combination allows the training manager the flexibility to create a diverse training program capable of producing the best-trained Marine possible.

**1004. THE CORE CAPABILITIES METHODOLOGY**

1. **Core Tasks** are those essential basic skills that "make" a Marine and qualify that Marine for an MOS and are introduced in entry level training (100 level). **Core Plus Tasks** are those advanced skills that are mission, rank, or billet specific, and are performed in the 200-300 levels of training.

2. The tasks contained within this T&R Manual support a common set of skills derived from Subject Matter Experts (SME), the applicable Marine Corps Combat Readiness Evaluation System (MCCRES) volumes, and the MOS specific Front End Analysis (FEA) Report. These common skills provide a Core Capability shared by all Marines with like MOS, regardless of unit type or size.

3. Core capabilities are contained in appendix (A).

CHAPTER 2

**1005. CAREER PROGRESSION**

1. 100 level training (Combat Capable) is the initial MOS skills training at the formal school. At its completion, unit personnel are assigned basic MOS qualification and progress to the Combat Ready tier.

2. 200 level training (Combat Ready) trains newly schooled Marines and makes them proficient in core capabilities. At its completion, unit personnel progress to the Combat Qualification tier.

3. 300 level training (Combat Qualification) produces combat leaders and fully qualified section members. The personnel who are being trained in the Combat Qualification tier are those Marines a commanding officer feels are capable of directing the actions of subordinates during wartime scenarios.

5. 400 level training (Section Skills) reflects section tasks that directly support the core capability list. They are group rather than individual in nature, and require participation by a section. 400 level tasks, when completed, provide training credit for those individual (200-300 levels) tasks utilized in the completion of the 400 level task.

**1006. CAREER PROGRESSION PHILOSOPHY.** The career progression philosophy contained in appendix (B) describes the typical training progression for a Marine of this MOS.

**1007. EVALUATION OF TRAINING.** Evaluation of the academic portions of the T&R will be conducted either by written or oral examination or a combination of the two. A requirement to produce a product may accompany the task. Operational and system related tasks will be evaluated by practical application means whenever possible. At the commander's discretion, a Marine may receive credit for task completion through an oral explanation of the steps or procedures involved rather than by physically performing the task.

**1008. COMPONENTS OF A T&R EVENT**

1. General. An event contained within a T&R Manual is an individual or collective training standard and contains thirteen components.

**EVENT CODE:** The code assigned to each task for ease of reference which identifies individual (100-300 level) or section tasks (400 level).

**TASK:** A unit of work expressed as a performance-oriented action (i.e., "Type a letter.").

**CONDITION:** The constraints that affect the performance of the task in a real-world environment.

CHAPTER 1

It includes equipment, tools, materials, and reference requirements and environmental and safety constraints pertaining to task completion.

**STANDARD:** The basis for judging the effectiveness of the task performance. It identifies the proficiency level for task performance in terms of accuracy, speed, sequencing, and adherence to procedural guidelines. It is not guidance; it is inviolate. Whenever possible, the standard should cite a reference that defines the task in procedural or operational terms.

**CONCEPT OF TASK:** This paragraph is optional but may be used if the task requires further explanation.

**PREREQUISITE(S):** A listing of academic training and/or other T&R events which must be completed prior to attempting completion of the task.

**REFERENCE(S):** A listing of doctrinal or reference publications which may assist the trainee in satisfying the performance standards and the trainer in evaluating the effectiveness of task completion.

**ORDNANCE:** A listing of ordnance types and quantities required to complete the task.

**EXTERNAL SUPPORT REQUIREMENT(S):** A listing of the external range, support aircraft, targets, training devices, or other personnel and equipment requirements needed for completion of the task.

**1009. CRP COMPUTATION**

1. Each task in the T&R Manual has an assigned Combat Readiness Percentage (CRP). The combined CRP total of the Individual tasks of the 100-300 level training is 100%. The breakdown of that 100% CRP for the Individual tasks is as follows: 100 level tasks taught at the Formal School have a total CRP value of 60%; 200 and 300 level tasks have a combined CRP value of 40%.

2. CRP for 400 level Section tasks is considered separately from the Individual 100-300 level task CRP values. 400 level section tasks have a total CRP value of 100% and are not considered in conjunction with the 100-300 level Individual task CRP values. A section that successfully performs its mission can achieve a satisfactory section CRP value even when it is severely undermanned or when the individual

## CHAPTER 2

members of the section have low Individual CRP ratings in their 100-300 level training.

**1010. INDIVIDUAL TASK MATRIX**

1. The Individual Task Matrix, located at appendix (C), summarizes the tasks that are applicable to specific billets. Utilizing the Automated Training and Readiness Information Management System (ATRIMS) program and a syllabus tied to the event codes of the T&R manual, trainers will quickly establish training priorities. Trainers can determine the training combat readiness of individual Marines by comparing the Marine's CRP combined total on the billet specific completed 100-300 level tasks with the total possible CRP value of the Marine's billet. For example, if a billet has a total possible CRP value of 79.75% and an individual Marine's total CRP on completed 100-300 level tasks is 50%, a trainer can quickly determine which tasks must be addressed in order to raise the Marine's individual CRP to a higher level.

**Components of the Individual Task Matrix**

Event Code - The code assigned to each task for ease of reference which identifies individual (100-300 level) tasks.

CRP (Combat Readiness Percentage) - Quantitative value assigned to each T&R task. Used to calculate Individual Combat Readiness Percentage.

Sustainment Interval (in months) - Denotes how frequently a Marine must demonstrate proficiency in the task.

Billet Applicability Checkmark - Specifies which T&R tasks pertain to each specific billet. Trainers can quickly focus each Marine's instruction on the specific tasks that match the Marine's billet assignment.

\*\*\*Note\*\*\* 100 level Formal School training (Combat Capable Training) is applicable to all Marines who attend MOS producing schools.

**1011. SECTION TASK MATRIX.** The Section Task Matrix, located at appendix (D), summarizes the section tasks that are applicable to specific billets. It contains the same components as the Individual Task Matrix.

**1012. COMBAT CAPABLE TRAINING (100 level).** 100 level tasks are contained in appendix (E).

**1013. COMBAT READY TRAINING (200 level).** 200 level tasks are contained in appendix (F).

**1014. COMBAT QUALIFICATION TRAINING (300 level).** 300 level tasks are contained in appendix (G).

CHAPTER 1

**1015. SECTION SKILLS TRAINING (400 level).** 400 level tasks are contained in appendix (H).

**1016. SPECIAL DESIGNATIONS.** Completion of the courses of instruction contained in appendix (I) qualifies the individual Marine for assignment to specialized billets and/or responsibilities.

**1017. ACADEMIC TRAINING.** The Academic Training contained in appendix (J) lists civilian college courses, MCI courses, other service correspondence courses, etc., which are beneficial to professional development during 200-300 level training. They provide a Marine the opportunity to continue with professional development regardless of deployment status or workload.

**1018. CAREER PROFESSIONAL READING.** The Career Professional Reading contained in appendix (K) lists books that are recommended for professional development during 200-300 level training. These texts may be optional reading or may be tied to specific T&R tasks and require some type of product to be produced by the Marine.

**1019. UPDATE CHAINING.** Update chaining is contained in appendix (L).

**1020. BILLETS REQUIRING FORMAL SCHOOL ATTENDANCE.** Billets, which require formal school attendance, are contained in appendix (M).

**1021. EXPENDABLE ORDNANCE REQUIREMENTS.** Ordnance requirements are contained in appendix (N), if required.

**1022. TRAINING REFERENCES.** The training references contained in appendix (O) shall be utilized to determine task performance steps, grading criteria and ensure standardization of training procedures.

INTEL T&R MANUAL

CHAPTER 2

APPENDIX A

CORE CAPABILITIES

**Core Capabilities List**

---

1. Provide personal security for the Chaplain in a field environment.
2. Provide religious ministry support to Chaplains in garrison and field environment.
3. Determine logistical requirements for the Religious Ministry Team (RMT) utilizing the Marine Corps supply system.
4. Assign RMT personnel to expeditionary units
5. Serve as a tactical driver for the RMT.
6. Maintain the RMT's Table of Equipment and mount-out supplies in preparation for embarkation.
7. Reconcile Marine Corps Table of Organization (T/O) to the Navy Activity Manning Document (AMD).
8. Maintain T/O weapon(s) qualification.
9. Assist in administrating the Lay Leader program in a field environment.
10. Provide support for counseling sessions in a field environmmnet.
11. Coordinate unit visits in a field environment enabling the Chaplain to provide ministry and pastoral care.
12. Support Personal and Family Readiness Programs.

# INTEL T&R MANUAL

## CHAPTER 2

### APPENDIX B

#### CAREER PROGRESSION PHILOSOPHY

The Career Progression Philosophy for the Navy Religious Program Specialist (RP) (NEC 2401) is supported through a structured training plan. This plan consists of three levels of individual training (100, 200, 300) and one level of section training (400). The objective of this training plan is to provide Navy RPs with the knowledge and experience required to provide effective religious ministry support to the Marine Commander. This objective is accomplished through completion of formal schools, MOJT, deployments and exercises. Training at the 100 level is designed to provide Navy RPs with those core skills necessary to function as a Religious Program Specialist in an expeditionary environment. This training is conducted at the Chaplains and Religious Program Specialist Expeditionary Skills Training (CREST), Camp Lejeune, NC. Training at the 200 level is designed to reinforce core skills and provide core plus skills necessary to fill positions of increased responsibilities. This level is achieved through MOJT, deployments and exercises. Training at the 300 level is designed to provide additional core plus skills necessary for the Religious Program Specialist to function as a supervisor/mentor of junior RPs. This level of training is achieved through deployments, exercises, Managed On the Job Training (MOJT), and completion of advanced training courses not taken during the RPs career progression path.

CHAPTER 2

APPENDIX E

COMBAT CAPABLE TRAINING (100 LEVEL)

**Purpose:** Training at the 100 level is designed to provide Navy RPs with those core skills necessary to function as a Religious Program Specialist in an expeditionary environment. This training is conducted at the Chaplains and Religious Program Specialist Expeditionary Skills Training (CREST), Camp Lejeune, NC.

**Administrative Notes:** None.

**Prerequisites:** None.

INTEL T&R MANUAL

CHAPTER 2

**Event code:** 100-XXX

**Task:** Implement a Command Religious Program (CRP) for a combat environment.

**Condition:** Provided with the appropriate references, materials, and equipment.

**Standard:** FMFM 3-61, Ministry in Combat

**Concept of task:** None.

**Prerequisites:** None.

**CRP:** 0 **Sustainment Interval (months):** 0

**External Support Required:** None.

**Events updated:** None.

**Reference(s):** Marine Battle Skills Books 1-4  
FMFM 3-61, Ministry in Combat
